Sharon – Mr. Gross echoes Ms. Avena’s response. Given his relatively new entry into the discussions, he needs additional time to communicate directly with other central plume members. Efforts are underway to have those discussions over the next couple of days, and we will keep you posted on our progress.

Thanks.

- Pete

Subject: New Cassel Hicksville Ground Water Contamination Superfund Site EPA Settlement

Importance: High

Sharon,

Our client Arkwin has expressed an earnest interest in settlement with the EPA on this matter, as you and I discussed. As we also discussed, some issues remain “unsettled” at this point, so there needs to be additional time to hammer things out, to be fair. In the meantime, however, and Arkwin has continued to communicate among the Central Plume Respondents, as well as with representatives from the Western Plume and Eastern Plume, and with EPA convener David Batson. Attached is some suggested language for insertion into the Administrative Order on Consent, as you requested. All respondents have not yet provided comment, however, so this is provisional language.
